ICoCA Recognition Statement for ANSI/ASIS PSC.1-2012

In accordance with Article 11.2.1 of the ICoCA Articles of Association and the ICoCA Certification Procedure, the Board of Directors hereby recognizes ANSI/ASIS PSC.1-2012 as a national standard that is consistent with the International Code of Conduct for Private Security Service Providers (ICoC) and appropriate for use as a basis for certification by the ICoCA that a company's systems and policies meet the Code's principles and the standards derived from the Code.

The Board has analyzed the ANSI/ASIS PSC.1-2012 standard in accordance with the manner described in the ICoCA Certification Procedure, for the purpose of identifying any instances in which the content of the standard does not fully cover the extent of the commitments contained in the ICoC. The results of that analysis are reflected in the attached Annex A.

Based on its analysis, the Board has determined the additional information relevant to the human rights and humanitarian impact of operations that it deems necessary for assessing whether a company's systems and policies meet the requirements of the Code and that company's readiness to participate in the Association. Such additional information is described on the attached Annex B, and must be provided by any company seeking ICoCA Certification on the basis of having been certified to ANSI/ASIS PSC.1-2012. Note also that such certification to ANSI/ASIS PSC.1-2012 must have been obtained from an audit company accredited by a national accreditation body that is a member of the IAF/MLA.
